LIMITATIONS: This color chart only gives an estimate of the final color and must be used only as a guideline for color selection. The final color may differ from that which is shown in this chart. The examples in the color chart were developed in a controlled environment using materials that may vary in different locations. Interstar Ready Mix colors can be affected by many factors including but not limited to: finishing techniques, workmanship, materials used, curing and sealing.

NOTE: The number of bags indicated on this color chart corresponds to the number of bags of pigment required per yard or meter of concrete.
